Personal profile

As a highly motivated and results-oriented developer in the field of Full Stack Web development and mobile applications, as well as an Artificial Intelligence and Data Analysis student, I have a proven track record of delivering high-quality technical projects. My current focus lies in the realm of AI and Data Science, where I am actively pursuing online courses, engaging in self-study, and working on various projects within this domain.

Experience

July 2022 - En cours Full Stack Web Developer-Mobile Developer (Part time) Iker | Centre Vile Tétouan 93020

I start working as a Full Stack Web Developer (Laravel) and Mobile Developer (Flutter) at Iker, the company website is Iker.ma, I am working on a big project. In parallel, with this, I am making some other projects and some modifications to previous mobile applications which the company does, and in brave, the project that I'm working on its content online payments, page builder, automatic integrations with analysis platforms like Google Analytics and Facebook pixel ..., Authentications with different social media platforms, many SPA, many Dashboards, many permissions..., and it's working with a team and I'm the leader of the team and I can let them work with me without problems, and they keep motivates most of the time, and for AI and Data analysis I make many projects that integrated with websites and others just in google colab.

You can check the links to see some machine learning project:

2020 – 2022 Freelancer Full Stack Web Developer-Mobile Developer

Since 2020 I have worked as a freelancer in Full Stack Web Development field using Laravel I make some projects, and I will start with my site <https://abdelkhalek-haddany.com>, it's a personal site and blog for programming and designing articles, you can check it by yourself. Also, I made a management system for an international center and I built an E-commerce website with multi-vendors, multi-languages, and multi-themes from scratch you can check it at <http://shop.abdelkhalek-haddany.com>, and in my PFE I'm developing a site and mobile application for a rapid intervention service you can see the site at <http://alarm.abdelkhalek-haddany.com> and the application on my google play account and I participated in another project.

2019 – 2020 Google Play Mobile Developer (Java)

In the first of my career, I'm working as an Android developer with Java, I build some apps and upload them on google play you can check my store in google play "AbdoHapps", I'm working at this time with many different types of data like JSON and data in SQLite Database and data in text files, in this deference types I'm using the search and the curd functions. and I work on the build of the layouts and others.

One of my apps: https://play.google.com/store/apps/details?id=com.abdohpro.rafi9o_almoslim

Education

2019 – 2022 License University Ibno Zohr Ouarzazate

2022 – 2024 Master University Moulay ismail Meknes

Licenses & Certifications

Exploratory Data Analysis for Machine Learning

<https://www.coursera.org/account/accomplishments/verify/6FJJVXCBLMDP>

Python for Data Science

<https://courses.cognitiveclass.ai/certificates/92eaf68ad3814f639eb5280fea59e6ec>

SKILL'S

AI : ML | DL | Good analytical skills | Sklearn | NLP | TensorFlow | Data Visualization | NNs | Probabilities & Statistics

Programming languages: PHP | JS | Python | C&C++ | Java | HTML | CSS

Frameworks: Laravel | NodeJS | Spring Boot | Bootstrap | ReactJS | Vue JS | Express | SASS | Django

Connectors: GRPC | SOAP | RestAPI | GraphQL | WebSocket | Kafka

Others: Git | Github | Linux | CLI | UML | Enterprise Architecte Docker | EC6 | Post Man

Libraries & tools: API | Jquery| JSON | Ajax | JWT

QLs & DBMSs: SQL | NoSQL | MySql | MongoDB

Expertise

Adaptation | Good analytical skills | | Serious when needed | Fast learning | Problem solving | Passionate | Collaboration

Language

Arabic | English | French
